# PVC CARDS
## Technical data & Specification

Evolis PVC cards are the ideal support for outstanding printouts.
Their even and flat surface ensure flawless moves under the print head (minimizing the risk of damage) and printouts with vivid colors and well-defined barcodes.

## General Specification

- **Type:** PVC Cards.
- **Features:**
The PVC cards are compliant with ISO CR-80 standards:
Length: 85.6 mm
Width: 54 mm
These cards exist in two thicknesses:
C4001: Classic blank white cards – 0.76 mm / 30MIL.
C4002: Classic blank white cards – 0.5 mm / 20MIL.
- **Storage Information:** Avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.

## Compatibility

Tattoo², Pebble[4], Dualys[3], Quantum, Securion, Zenius. 5 packs of 100 cards.

## Advantages

The quality of our cards allows a printing quality and a good readability of specific elements (texts, barcodes…), additionally, as the cards are in PVC, they are flexible but very resistant and solid.

They are delivered in a dust-free box to help you get a better print quality. The packaging by 100 cards help to maintain the cards away from the dust.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

Use Evolis High Trust® supplies to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
